January 8th, 1916

Colonel Noel Marshall,
Toronto.

Dear Colonel Marshall:

I have received a letter from a French Colonel, President of the French Red Cross Committee of Dijon, which apparently he is sending to other Universities, asking for help for the local Red Cross Society under the Red Cross Society of France. It is under the patronage of the French President. He writes that he knows of the generosity and charitable spirit of Canadians and asks for help.

To-morrow I am going to address the students and intend to lay before them certain worthy objects. I do not wish, however, to bring forward the French Red Cross in any way that would conflict with our own Red Cross. Would it be possible for me in recommending our own Red Cross to the students to say that sums for the French Red Cross would be transmitted through your Committee. I should like to have you telephone to me in the morning with regard to this.

Yours sincerely,

President.

January 7th, 1918

Personal.

Colonel M. Marshall,

77 King Street East, Toronto.

My dear Colonel Marshall:

I had Professor Fitzgerald come to my office this morning and we discussed the matter to which you referred in your letter. Professor Fitzgerald was of my view that Colonel Gooderham was not at all anxious to have his name mentioned in connection with the production of antitetanus and other biological products. He had already given information to a "Globe" reporter. I spoke to Dr. Clarke, the Dean, about the matter and he will call up that reporter and see that the information gives credit to Colonel Gooderham. Dr. Fitzgerald also said that he would have one of his staff write an article for one of the evening papers.

I may say that during the summer there was a long article written by Dr. Gordon Bates and published in Maclean's Magazine in which full reference was made to Colonel Gooderham's gift. He will have that sent to the Colonel.

With kind regards, I am,

Yours sincerely,

President

February 28th, 1916

Colonel Noel Marshall,

Toronto.

My dear Colonel Marshall:

I am sending down to you copies of our Matriculation Calendar and of the Faculty of Arts with the courses in Economics and Law turned down. In these Calendars there is the necessary information for the Serbian and Montenegrin students who are now in New York. If they will let us know what their course has been we should be in a better position to judge what they could do in the University here.

Yours sincerely,

President.
